2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Discuss the reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations during the reporting period. Discussions of liquidity and capital resources may be combined whenever the two topics are interrelated. Discussion of material changes should be from the end of the preceding financial year to the date of the most recent interim report.

The Management's Discussion and Analysis should disclose sufficient information to enable investors to judge:

1. The quality of earnings;
2. The likelihood that past performance is indicative of future performance; and
3. The issuer's general financial condition and outlook.

It should disclose information over and above that which is provided in the management accounts and should not be merely a description of the movements in the financial statements in narrative form or an otherwise uninformative series of technical responses. It should provide management's perspective of the company that enables investors to view the business from the vantage point of management.

The discussion should focus on aspects such as liquidity; capital resources; changes in financial condition; results of operations; material trends and uncertainties and measures

taken or to be taken to address unfavourable trends; key performance indicators; and non-financial indicators.

General Discussion and Analysis of Financial Condition

Please see the appended document "Eastern Caribbean Home Mortgage Bank Unaudited Financial Statements for the Three (3) Months ended 30th June 2020".

Liquidity and Capital Resources

Provide a narrative explanation of the following (but not limited to):

- i) The reporting issuer's financial condition covering aspects such as liquidity, capital resources, changes in financial condition and results of operations.
- ii) Any known trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, the issuer's liquidity increasing or decreasing in any material way. If a deficiency is identified, indicate the course of action that the reporting issuer has taken or proposes to take to remedy the deficiency.
- iii) The issuer's internal and external sources of liquidity and any material unused sources of liquid assets.
- iv) Provisions contained in financial guarantees or commitments, debt or lease agreements or other arrangements that could trigger a requirement for an early payment, additional collateral support, changes in terms, acceleration of maturity, or the creation of an additional financial obligation such as adverse changes in the issuer's financial ratios, earnings, cash flows or stock price or changes in the value of underlying, linked or indexed assets.

- v) Circumstances that could impair the issuer's ability to continue to engage in transactions that have been integral to historical operations or are financially or operationally essential or that could render that activity commercially impracticable such as the inability to maintain a specified level of earnings, earnings per share, financial ratios or collateral.
- vi) Factors specific to the issuer and its markets that the issuer expects will affect its ability to raise short-term and long-term financing, guarantees of debt or other commitment to third parties, and written options on non-financial assets.
- vii) The relevant maturity grouping of assets and liabilities based on the remaining period at the balance sheet date to the contractual maturity date. Commentary should provide information about effective periods and the way the risks associated with different maturity and interest profiles are managed and controlled.
- viii) The issuer's material commitments for capital expenditures as of the end of the latest fiscal period, and indicate the general purposes of such commitments and the anticipated source of funds needed to fulfil such commitments.
- ix) Any known material trends, favorable or unfavorable, in the issuer's capital resources, including any expected material changes in the mix and relative cost of capital resources, considering changes between debt, equity and any off-balance sheet financing arrangements.

Discussion of Liquidity and Capital Resources

- iii) Off-balance sheet arrangements such as their business purposes and activities, their economic substance, the key terms and conditions of any commitments, the initial on-going relationship with the issuer and its affiliates and the potential risk exposures resulting from its contractual or other commitments involving the off-balance sheet arrangements.
- iv) The effects on the issuer's business and financial condition of the entity's termination if it has a finite life or it is reasonably likely that the issuer's arrangements with the entity may be discontinued in the foreseeable future.

As at 30th June 2020, there were no Off-Balance Sheet Arrangements.

Results of Operations

In discussing results of operations, issuers should highlight the company's products and services, facilities and future direction. There should be a discussion of operating considerations and unusual events, which have influenced results for the reporting period. Additionally, any trends or uncertainties that might materially affect operating results in the future should be discussed.

Provide a narrative explanation of the following (but not limited to):

- iv) Known events that will cause a material change in the relationship between costs and revenues (such as price increases, costs of labour or materials), and changes in relationships should be disclosed.
- v) The extent to which material increases in net sales or revenues are attributable to increases in prices or to increases in the volume or amount of goods or services being sold or to the introduction of new products or services.
- vi) Matters that will have an impact on future operations and have not had an impact in the past.
- vii) Matters that have had an impact on reported operations and are not expected to have an impact upon future operations
- viii) Off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships that have or are reasonably likely to have a current or future effect on the registrant's financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.
- ix) Performance goals, systems and, controls.

The amount of \$54.21M was held in Cash and Cash Equivalents pending acquisition of Investment Securities.
- 2.2 On account of the increased resources placed in income generating assets, Interest Income for the three months ended 30th June 2020 was reported at \$3.72M and represents growth of \$0.55M (17.35%) when compared to the \$3.17M reported for the three months ended 30th June 2019.

3.0 Other Income

- 3.1 The Bank commenced the active management of its Investment Securities during the latter part of 2019. For the three (3) months ended 30th June 2020, the Bank generated gains totaling \$2.15M from the disposal of investments reported through other comprehensive income ("OCI") and recorded \$1.32M in fair value gains from Investment Securities reported through profit and loss. In comparison, there were no gains reported from the Investment Securities portfolio for the comparative period of 2019.

4.0 Interest Expense

- 4.1 During the second half of 2019, the Bank discontinued the pricing of its Borrowings via Competitive Bid Auctions and replace same with Fixed Price Auctions. Other pertinent changes to the funding “Marketing Mix” included the issuance of instruments via private prospectus and the elimination of transaction fees. In addition, the Bank commenced the diversification of its Borrowings with the issuance of its inaugural repurchase agreements programme totaling \$13.19M. The changes contributed to a \$67.64M (31.64%) increase in Borrowings from \$213.80M for the three months ended 30th June 2019 to \$281.44M for the three months ended 30th June 2020.
- 4.2 As a result of the increased Borrowings, Interest Expense increased by \$0.34m (26.77%) from \$1.27M for three months ended 30th June 2019 to \$1.61M for three months ended 30th June 2020.

5.0 Net Interest Income

- 5.1 Net Interest Income or the difference between Interest Income (\$3.72M) and Interest Expense (\$1.61M) amounted to \$2.11M or 56.72% for the three months ended 30th June 2020 and represents a decline of 3.22% when compared to 59.94% reported for the comparative period of FY 2019. The decline in Net Interest Income

Percentage is attributed to higher Interest Expense and lower yields due to the turnover rate of the Investment Securities Portfolio on account of the active management strategy.

6.0 Expenses

- 6.1 ECHMB continued to place emphasis on improving its brand recognition. This included eMarketing in each of the eight (8) islands of the ECCU. Our increased marketing efforts and higher staff costs were largely responsible for the \$0.12M (29.27%) increase in General and Administrative Expenses from \$0.41M for the three months ended 30th June 2019 to \$0.53M for the three months ended 30th June 2020.
- 6.2 Other Operating Expenses declined by \$0.03M (9.68%) from \$0.31M for the three months ended 30th June 2019 to \$0.28M for the three months ended 30th June 2020. Savings were mainly in Directors Fees and Expenses.

- General and administrative expenses ■ Other operating expenses
- Mortgage administrative fees

7.0 Net Profit for the Three Months Ended 30th June 2020

- 7.1 The ECHMB reported a net profit for the three months ended 30th June 2020 of \$4.74M, representing an increase of \$3.59M (312.17%) when compared to \$1.15M reported for the comparative period of 2019.
- 7.2 The increased profitability of the Bank was attributed mainly to the \$3.47M generated in Other Income, coupled with the prudent management of Expenses.

8.0 Outlook Three Months Ending 30th September 2020

- 8.1 Covid-19 continues to adversely impact the economies of the Eastern Caribbean Currency Union (“ECCU”) with the knock-on effect of stymieing growth in loans on the primary market. Further, sophisticated investors in the ECCU are generally reluctant to acquire non-investment grade financial instruments. This change in risk appetite may be spurred by IFRS 9 which requires entities to provide for expected credit losses on financial instruments. Given the above-mentioned conditions, financial intermediaries continue to report increasing liquidity in their statement of financial position.

- 8.2 The escalating liquidity in the ECCU has presented opportunities for the ECHMB to grow its statement of financial position, since the Bank is generally considered a haven. The cash inflows are likely to be invested on the international bond market.
- 8.3 Based on the performance of the international bond market and growth in the Bank's Assets Under Management, the ECHMB projects that net profit for the quarter ending September 2020 is likely to significantly outpace the comparative period of 2019 spurred by gains from the fixed income instruments traded through other comprehensive income.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED 30 JUNE 2020

1 Incorporation and principal activity

The Governments of Anguilla, Antigua and Barbuda, The Commonwealth of Dominica, Grenada, Montserrat, St. Kitts-Nevis, St. Lucia and St. Vincent and the Grenadines signed an agreement on May 27, 1994, to establish the Eastern Caribbean Home Mortgage Bank (hereinafter referred to as “the Bank”).

The Bank was formally established on August 19, 1994, in accordance with Article 40 of the Eastern Caribbean Home Mortgage Bank Agreement, which was incorporated in the Eastern Caribbean Home Mortgage Bank Agreement Act, and subsequently passed in the member territories. The primary office of the Bank is located at Bird Rock, Basseterre, St. Kitts and Nevis.

The principal activity of the Bank is to buy and sell mortgage loans on residential properties, in order to develop and maintain a secondary market in mortgages.

The registered office of the Bank is located at ECCB Agency Office, Monckton Street, St. George’s, Grenada.

2 Basis of preparation and compliance with the International Financial Reporting Standards (IFRS)

The condensed interim financial statements for the three months ended 30 June 2020 have been prepared in accordance with IAS 34, “Interim Financial Reporting”. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 March 2020, which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

3 Changes in accounting policies

Certain new standards, interpretations and amendments to existing standards have been published that became effective during the current financial year. The Bank has assessed the relevance of all such new interpretations and amendments, and has adopted the following, which are relevant to its operations.

New standards adopted during the accounting year

IFRS 16, Leases (effective from January 1, 2019)

In the current year, the Bank has applied IFRS 16 (as issued by the IASB in January 2016) that is effective for annual periods beginning on or after January 1, 2019. IFRS 16 replaces IAS 17, Leases, and its related interpretation IFRIC 4, Determining Whether an Arrangement Contains a Lease.

IFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged.

The adoption of IFRS 16 from April 1, 2019 resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements. This resulted in the Bank recognising a right-of-use asset and related lease liability in connection with its operating lease. In accordance with the transitional provisions in IFRS16, comparative figures have not been restated.

On transition, the lease previously accounted for as an operating lease with a remaining lease term of less than 12 months, the Bank has applied the optional exemption to not recognise right-of-use asset but to account for the lease expense on a straight line basis over the remaining lease term. As the lease term was less than 12 months with no purchase option, payment was recognised in the profit and loss.

The Bank entered into a new lease effective July 1, 2019 and has recognised a right-of-use asset and the related lease liability.

There are no other new or amended standards and interpretations that are issued but not yet effective, that are expected to have a significant impact on the accounting policies or financial disclosures of the Bank.

Other amendments to standards

Other standards and amendments that are effective for the first time in April 1, 2019 are as follows:

- IFRS 9, *Prepayment features with Negative Compensation* (Amendments to IFRS 1);

- IAS 28, *Long-term interests in Associates and Joint Ventures* (Amendments to IAS 28);
- IFRIC 28, *Uncertainty over Income Tax Treatments*;
- Annual improvements to IFRS 2015-2017 cycle (IAS 12, IAS 23, IFRS 3 and IFRS 11); and
- IAS 19, *Plan Amendment, Curtailment or Settlement* (Amendments to IAS 19).

These amendments do not have significant impact on these financial statements and therefore the disclosures have not been made.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Bank

At the date of authorisation of the annual financial statements, several new, but not yet effective, Standards and amendments to existing Standards, and Interpretations have been published by the IASB. None of these Standards or amendments to existing Standards have been adopted early by the Bank.

Management anticipates that all relevant pronouncements will be adopted for the first period beginning on or after the effective date of the pronouncement. New Standards, amendments and Interpretations not adopted in the current year have not been disclosed as they are not expected to have a material impact on the Bank's financial statements.

3.0 Other Income

- 3.1 The Bank commenced the active management of its Investment Securities during the latter part of 2019. For the three (3) months ended 30th June 2020, the Bank generated gains totaling \$2.15M from the disposal of investments reported through other comprehensive income ("OCI") and recorded \$1.32M in fair value gains from Investment Securities reported through profit and loss. In comparison, there were no gains reported from the Investment Securities portfolio for the comparative period of 2019.

4.0 Interest Expense

- 4.1 During the second half of 2019, the Bank discontinued the pricing of its Borrowings via Competitive Bid Auctions and replace same with Fixed Price Auctions. Other pertinent changes to the funding “Marketing Mix” included the issuance of instruments via private prospectus and the elimination of transaction fees. In addition, the Bank commenced the diversification of its Borrowings with the issuance of its inaugural repurchase agreements programme totaling \$13.19M. The changes contributed to a \$67.64M (31.64%) increase in Borrowings from \$213.80M for the three months ended 30th June 2019 to \$281.44M for the three months ended 30th June 2020.
- 4.2 As a result of the increased Borrowings, Interest Expense increased by \$0.34m (26.77%) from \$1.27M for three months ended 30th June 2019 to \$1.61M for three months ended 30th June 2020.

5.0 Net Interest Income

- 5.1 Net Interest Income or the difference between Interest Income (\$3.72M) and Interest Expense (\$1.61M) amounted to \$2.11M or 56.72% for the three months ended 30th June 2020 and represents a decline of 3.22% when compared to 59.94% reported for the comparative period of FY 2019. The decline in Net Interest Income

Percentage is attributed to higher Interest Expense and lower yields due to the turnover rate of the Investment Securities Portfolio on account of the active management strategy.

6.0 Expenses

- 6.1 ECHMB continued to place emphasis on improving its brand recognition. This included eMarketing in each of the eight (8) islands of the ECCU. Our increased marketing efforts and higher staff costs were largely responsible for the \$0.12M (29.27%) increase in General and Administrative Expenses from \$0.41M for the three months ended 30th June 2019 to \$0.53M for the three months ended 30th June 2020.
- 6.2 Other Operating Expenses declined by \$0.03M (9.68%) from \$0.31M for the three months ended 30th June 2019 to \$0.28M for the three months ended 30th June 2020. Savings were mainly in Directors Fees and Expenses.

- General and administrative expenses ■ Other operating expenses
- Mortgage administrative fees

7.0 Net Profit for the Three Months Ended 30th June 2020

- 7.1 The ECHMB reported a net profit for the three months ended 30th June 2020 of \$4.74M, representing an increase of \$3.59M (312.17%) when compared to \$1.15M reported for the comparative period of 2019.
- 7.2 The increased profitability of the Bank was attributed mainly to the \$3.47M generated in Other Income, coupled with the prudent management of Expenses.

8.0 Outlook Three Months Ending 30th September 2020

- 8.1 Covid-19 continues to adversely impact the economies of the Eastern Caribbean Currency Union (“ECCU”) with the knock-on effect of stymieing growth in loans on the primary market. Further, sophisticated investors in the ECCU are generally reluctant to acquire non-investment grade financial instruments. This change in risk appetite may be spurred by IFRS 9 which requires entities to provide for expected credit losses on financial instruments. Given the above-mentioned conditions, financial intermediaries continue to report increasing liquidity in their statement of financial position.

- 8.2 The escalating liquidity in the ECCU has presented opportunities for the ECHMB to grow its statement of financial position, since the Bank is generally considered a haven. The cash inflows are likely to be invested on the international bond market.
- 8.3 Based on the performance of the international bond market and growth in the Bank's Assets Under Management, the ECHMB projects that net profit for the quarter ending September 2020 is likely to significantly outpace the comparative period of 2019 spurred by gains from the fixed income instruments traded through other comprehensive income.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED 30 JUNE 2020

1 Incorporation and principal activity

The Governments of Anguilla, Antigua and Barbuda, The Commonwealth of Dominica, Grenada, Montserrat, St. Kitts-Nevis, St. Lucia and St. Vincent and the Grenadines signed an agreement on May 27, 1994, to establish the Eastern Caribbean Home Mortgage Bank (hereinafter referred to as “the Bank”).

The Bank was formally established on August 19, 1994, in accordance with Article 40 of the Eastern Caribbean Home Mortgage Bank Agreement, which was incorporated in the Eastern Caribbean Home Mortgage Bank Agreement Act, and subsequently passed in the member territories. The primary office of the Bank is located at Bird Rock, Basseterre, St. Kitts and Nevis.

The principal activity of the Bank is to buy and sell mortgage loans on residential properties, in order to develop and maintain a secondary market in mortgages.

The registered office of the Bank is located at ECCB Agency Office, Monckton Street, St. George’s, Grenada.

2 Basis of preparation and compliance with the International Financial Reporting Standards (IFRS)

The condensed interim financial statements for the three months ended 30 June 2020 have been prepared in accordance with IAS 34, “Interim Financial Reporting”. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 March 2020, which have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

3 Changes in accounting policies

Certain new standards, interpretations and amendments to existing standards have been published that became effective during the current financial year. The Bank has assessed the relevance of all such new interpretations and amendments, and has adopted the following, which are relevant to its operations.

New standards adopted during the accounting year

IFRS 16, Leases (effective from January 1, 2019)

In the current year, the Bank has applied IFRS 16 (as issued by the IASB in January 2016) that is effective for annual periods beginning on or after January 1, 2019. IFRS 16 replaces IAS 17, Leases, and its related interpretation IFRIC 4, Determining Whether an Arrangement Contains a Lease.

IFRS 16 introduces new or amended requirements with respect to lease accounting. It introduces significant changes to lessee accounting by removing the distinction between operating and finance lease and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for short-term leases and leases of low value assets. In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged.

The adoption of IFRS 16 from April 1, 2019 resulted in changes in accounting policies and adjustments to the amounts recognised in the financial statements. This resulted in the Bank recognising a right-of-use asset and related lease liability in connection with its operating lease. In accordance with the transitional provisions in IFRS16, comparative figures have not been restated.

On transition, the lease previously accounted for as an operating lease with a remaining lease term of less than 12 months, the Bank has applied the optional exemption to not recognise right-of-use asset but to account for the lease expense on a straight line basis over the remaining lease term. As the lease term was less than 12 months with no purchase option, payment was recognised in the profit and loss.

The Bank entered into a new lease effective July 1, 2019 and has recognised a right-of-use asset and the related lease liability.

There are no other new or amended standards and interpretations that are issued but not yet effective, that are expected to have a significant impact on the accounting policies or financial disclosures of the Bank.

Other amendments to standards

Other standards and amendments that are effective for the first time in April 1, 2019 are as follows:

- IFRS 9, *Prepayment features with Negative Compensation* (Amendments to IFRS 1);

- IAS 28, *Long-term interests in Associates and Joint Ventures* (Amendments to IAS 28);
- IFRIC 28, *Uncertainty over Income Tax Treatments*;
- Annual improvements to IFRS 2015-2017 cycle (IAS 12, IAS 23, IFRS 3 and IFRS 11); and
- IAS 19, *Plan Amendment, Curtailment or Settlement* (Amendments to IAS 19).

These amendments do not have significant impact on these financial statements and therefore the disclosures have not been made.

Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Bank

At the date of authorisation of the annual financial statements, several new, but not yet effective, Standards and amendments to existing Standards, and Interpretations have been published by the IASB. None of these Standards or amendments to existing Standards have been adopted early by the Bank.

Management anticipates that all relevant pronouncements will be adopted for the first period beginning on or after the effective date of the pronouncement. New Standards, amendments and Interpretations not adopted in the current year have not been disclosed as they are not expected to have a material impact on the Bank's financial statements.
